

CLAIM HISTORY

MA Eligibility Check

CIPS will check for a client's MA enrollment before processing the claims for payments. Claims will be uploaded to the State Client Information system through a process called "270/271 data exchange".

If a client has MA, CIPS will reject all MA reimbursable claims for that client. The providers should bill MA for reimbursement for the rejected claims. The system will check for retro-eligibility up to 90 days from the date of service, so that providers can meet 180 days timely filing requirement to bill MA.

HealthChoices Eligibility Check

CIPS will check for HealthChoices (HC) Eligibility. DHS will get an HC Eligibility file from AHCI. Claims will be checked for HC eligibility and reject claims for services to be paid by HC (CCBHO).

The Claim History screen will show the client's eligibility for each claim submitted.

- Search for the client.
- Click the **Show** button to bring up Client Demographics.
- Click **SERVICE>SERVICES RENDERED>SERVICES RENDERED LIST**.
- Check the Filter field(s) to conduct specific search.
- Click the **Filter** button.
 - Click on the row of the claim to be viewed.
- Click the **Claim History** button.
